

React Welcome screen and tabs

Welcome screen npm page link

<https://www.npmjs.com/package/react-native-app-intro-slider>

Welcome screen installation cmd

```
npm i react-native-app-intro-slider
```

Welcome screen import, props and events

```
import Slider from 'react-native-app-intro-slider';
```

```
<Slider  
  data={data}  
  renderItem={renderItem}  
  renderNextButton={nextButtonUiFunction}  
  renderDoneButton={doneButtonUiFunction}  
  showSkipButton={true}  
  onDone={()=>navigation.navigate('Layout')}  
  onSkip={()=>navigation.navigate('Layout')}  
/>
```

Tabs

```
npm install @react-navigation/bottom-tabs
```

Example

```
import { createBottomTabNavigator } from '@react-navigation/bottom-tabs';  
const { Navigator, Screen } = createBottomTabNavigator();
```

```
<Navigator screenOptions={screenOptions}>  
  <Screen name="Home" component={Home} />  
</Navigator>
```

screenOptions

```
const screenOptions = ({route})=>({  
  tabBarIcon: ({focused})=>{  
    if(route.name === 'Home') return <Icon name="home" />  
  },  
  tabBarActiveTintColor: 'tomato',  
  tabBarInactiveTintColor: 'gray'  
});
```

notificationOption

```
<Screen name="Notifications" component={Notifications} options={{tabBarBadge: 6}} />
```
