

NEXT.JS

Nextjs is framework of reactjs

Why we use nextJs ?

To improve website loading speed and seo performance

Some Useful features of Next Js

1. Page base routing
2. Automatic code splitting (Lazy Load)
3. Hot module replacement (HMR)
4. Server Side Rendering (SSR)
5. Static file generation
6. Authentication (signup, login)
7. Image optimization

NextJs Components

1. Head
2. Image
3. Link

Import NextJs Components

import Head from "next/Head"

import Image from "next/Image"

import Link from "next/Link"

Open in new tab

<Link href="/courses">

Courses

</Link>

Preview and optimize image

<Image src="/f.jpg" width={200} height={200} />
